MANUFACTURERS OF THE FIRST ORGANIC BIO - CHEMICAL COMPOUNDS

2nd September, 2013.

**THE MINISTRY OF HEALTH,
REPUBLIC OF UGANDA.**

Through:

NATIONAL DRUG AUTHORITY.

KAMPALA - UGANDA.

**RE: INTRODUCING COMPOUND ORGANIC BIO-CHEMISTRY TO THE
PHARMACEUTICAL INDUSTRY.**

We are seeking a **DIPLOMATIC** passport to the **PHARMACEUTICAL** Industry.

We are located at Kisira Road, KALIRO Town Council, KALIRO DISTRICT, Eastern Uganda.

We would **WISH** to INFORM the **GENERAL PUBLIC** that we have the **CURE** for **DIABETES**, HIGH BLOOD PRESSURE, LOW BLOOD PRESSURE, CARDIAC FAILURE, SICKLE CELLS, and ASTHYMA.

We would also like to hand-over the **RESEARCH RESULT** to **WORLD HEALTH ORGANISATION** for distribution.

Thank you.

Sincerely yours,

.....
TWINOMUSINGUZI VICENT

Kampala-Uganda.

RE: CLAIM FOR PATENT RIGHTS

We hereby claim for PATENT RIGHTS for the manufacture of the **FIRST Organic Bio-Chemical Compounds.**

This is medicine that does not contain any chemical residue.

Manufacturing is based on the Kinetic Theory of matter.

1. We extract food nutrients from food substances using Ammonia gas and Fresh water.
2. We extract chemicals from plants using wood-arsh and sulphur.
3. We mix the results of the two (1 & 2) above to manufacture medicine that contains the following:-
 - a) Antibiotic.
 - b) Purifier.
 - c) Preservative.
 - d) Food nutrients.

We have been doing this for the last ten years.

Every document that we gave out would bear the incramation; "The Proprietors of Compound Organic Bio-Chemistry".

Our website, www.twinomusinguzi.com which has been in use for the last four years bears the declaration of the invention:-

"We hereby declare that we have manufactured the First Organic Bio-Chemical Compounds"

We are therefore claiming two patents:

Twinomusinguzi (U) Ltd

The Proprietors of Compound Organic Bio Chemistry

1. The ability to extract chemicals and food nutrients without changing their micro-biological status.
2. Manufacturing medicine that does not have any chemical residue.

Manufacturing:

We break down the ingredients to the atom level using Ammonia gas and Fresh water, purify using sodium bi-carbonate, re-combine at -25°C using calcium oxide and zinc ions under air -tight conditions. We then ferment using yeast extract and sugar for a specific period of time.

The result is a NATURAL compound.

We extract the following chemicals and food nutrients:-

1. Yeast extract
2. Phosphorous.
3. Ammonia.
4. Sulphur.
5. Sodium bi-carbonate.
6. Zinc ions.
7. Citric acid.
8. Ascorbic acid
9. Amino acids
10. Vitamins A, B, C and D.
11. Iodine
12. Cinamone ions

They are ***pure*** and ***fully*** digested. Absorption is in the mouth.

The above products traverse the body after only three minutes of consumption.

Twinomusinguzi (U) Ltd

The Proprietors of Compound Organic Bio Chemistry

The above products are processed further to make PARENTAL CHEMICALS for the Pharmaceutical Industries.

They are:-

1. Ammonium sulphate.
2. Calcium oxide.
3. Zinc ions.
4. Yeast extract.

One just adds Silicon M₃ (1kilogram) to two hundred litres of the above combination to preserve eighty (80) million tones of a medicinal soft drink (beverage).

One needs one litre of silicon M₁ for two hundred litres of the combination to manufacture forty (40) million tomes of wine that does not contain alcohol.

The wine can be processed from millet porridge, banana juice, jackfruit, passion fruits, oranges, pineapples, grapes and avocado, paw paws, guava and water melon.

The end products of all the above processes will be pure, fully digested, magnified, and Natural Compounds.
